

Account - System Shut Off (Winterization)

In the application (Smart Device or PC), you can suspend your system for any period of time for winterization purposes or basic system shut down.

- For information on winterizing using the HC flow meter, [CLICK HERE](#) ^[1].
- For more information on the winterization procedure, [CLICK HERE](#) ^[2].

1. Click on the **gear** above the zones.
2. Next, click "**Suspend all zones.**"
3. Select the date range for which you would like the controller to be suspended. Use the arrow in the gray drop-down box to select a day and month. Once the date is selected, click **suspend**.
4. Your zones should all appear faded and you will get the following message: "**All zones suspended for XX months.**" This message will disappear after a few minutes.
5. If you wish to restart your system before the due date, click the single gear above your zones, and click "**Suspend all zones.**" Then, click "**Remove suspension**" in RED. The suspension will be removed and the system will be ready for watering.
