

Picture Storage

As part of our HydraWise features, you get a set allowance for data. That way, you can upload personalized photos for your zones, file sheets, and other data for your customers if you are a contractor.

The table below shows the data allowance based on your plan:

Home Plans	Capacity
Free (Home Plan & Personal Weather Station Plans)	25 MB
Enthusiast Plan	100 MB

Contractor Plans	Capacity
Contractor Starter Plans (Free)	25 MB
Contractor Plan	100 MB
Bronze Plan	100 MB
Silver Plan	150 MB
Gold Plan	200 MB

Auto resize is also available. This automatically reduces the file size of image uploads based on the following conditions:

1. If the file size is greater than 1.5 MB, we reduce image size to 2000 pixels.
2. All other files are converted to JPG.
