

Observations (Obsolete)

The **Observations** view listed on the home page of the desktop and original app is now obsolete. Our current provider no longer supports this information sent to the software. All temperature and rainfall values can be easily viewed on the desktop on the **Reports** page in the old app and desktop versions.

- 1. Sign in to your [Hydrawise account](#). [1]
- 2. Click the **Reports** (📄) icon.
- 3. Click on the **Weather** tab to view all data.

□
Download the NEW app to use the easy-to-access**Forecast& Observations** option.
