

# Contractor - Monitor Controllers

Information about the status of your customer's controllers will show up in the contractor portal like the screen capture below:

1. Click on the **"Manager"** icon on the upper right hand side, then **"Home."**
2. In the **Contractor Dashboard** section, you can monitor customers controllers using the following information:
  - Top 3 alerts (see possible alerts for more info)
  - Total watering time for customers
  - Water Savings
  - Total Customers
  - Customers pending - waiting for customer to accept contractor as manager.
  - Controllers Online
  - Controllers Offline
