

Viewing Changes to Customer

This article will show you the steps needed to view any changes made by your customer.

- Looking at [customer alerts](#) [1]
- Looking at [events](#) [2] for that controller

Customer Events:

1. Click on **Settings**, then **My Customers**.
2. In the Customer Events section, you can see different types of alerts. Use the **Info**, **Warning**, and **Error** buttons to show or hide different types of alerts.

Types of Alerts

| Types of Alerts | |
|-----------------|---|
| Errors | Problems with the controller, such as over current or excess water usage |
| Warnings | Possible problems with the controller, such as low current |
| Info | Information about the controller, such as new zones added or zone run times |

Controller Reports:

1. From the menu, choose the **Controller** link in the upper right.
2. Choose customer's **controller name** to view report.
3. Next, select **Reports** at the top of the dashboard. This will show every report available for this specific controller.
