

# Viewing Changes to Customer

This article will show you the steps needed to view any changes made by your customer.

- Looking at [customer alerts](#) [1]
- Looking at [events](#) [2] for that controller

## Customer Events:

1. Click on **Settings**, then **My Customers**.
2. In the Customer Events section, you can see different types of alerts. Use the **Info**, **Warning**, and **Error** buttons to show or hide different types of alerts.

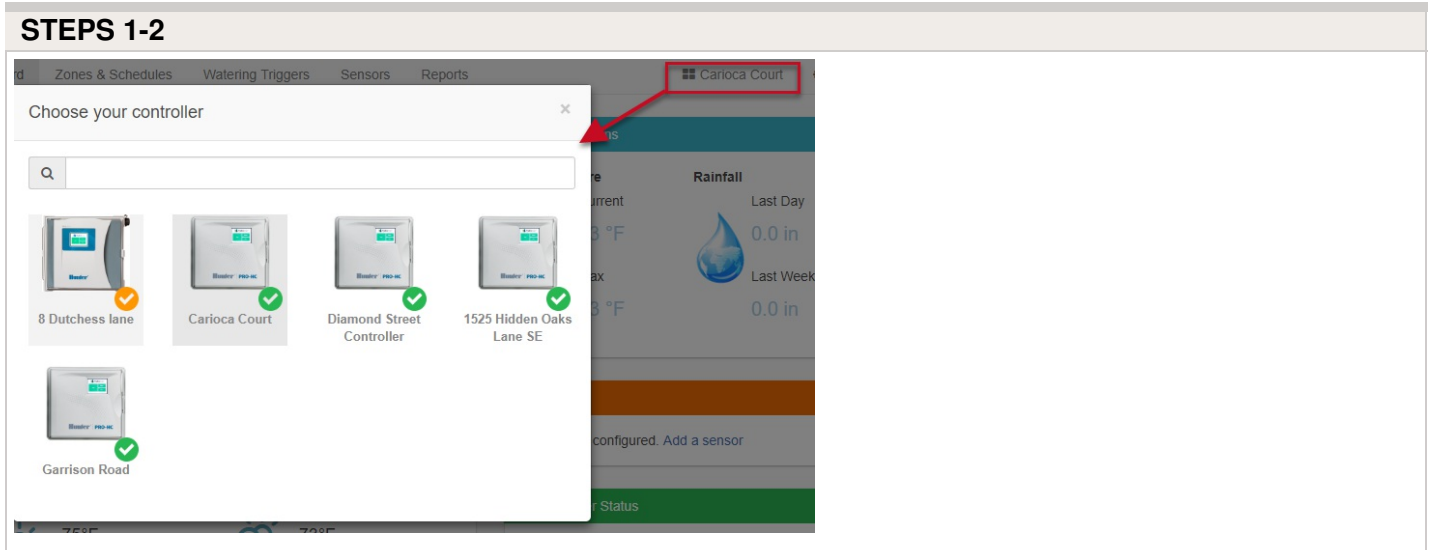

## Types of Alerts

Types of Alerts	
<b>Errors</b>	Problems with the controller, such as over current or excess water usage
<b>Warnings</b>	Possible problems with the controller, such as low current
<b>Info</b>	Information about the controller, such as new zones added or zone run times

# Controller Reports:

1. From the menu, choose the **Controller** link in the upper right.
2. Choose customer's **controller name** to view report.
3. Next, select **Reports** at the top of the dashboard. This will show every report available for this specific controller.

SCHEDULES

- Watering Schedule**
- Watering History (actual)
- WEATHER
- Weather Forecast
- Weather Station Temperatures
- Weather Station Rainfall
- Weather Station Wind Gust
- Evapotranspiration (ET)
- WATER USAGE
- Water Saving
- Flow Meter Measurements
- Total Water Usage
- Flow Rates (per minute)
- Sensor Levels
- Smart Water Balance
