Viewing Changes to Customer

This article will show you the steps needed to view any changes made by your customer.

- Looking at customer alerts [1]
- Looking at events [2] for that controller

Customer Events:

1. Click on **Settings,** then **My Customers**.
2. In the Customer Events section, you can see different types of alerts. Use the **Info**, **Warning**, and **Error** buttons to show or hide different types of alerts.

Types of Alerts

Types of Alerts	
Errors	Problems with the controller, such as over current or excess water usage
Warnings	Possible problems with the controller, such as low current
Info	Information about the controller, such as new zones added or zone run times

Controller Reports:

1. From the menu, choose the **Controller** link in the upper right.
2. Choose customers **controller name** to view report.
3. Next, select **Reports** at the top of the dashboard. This will show every report available for this specific controller.

STEPS 1-2
