

# How to Change the Run Times in Advanced Mode

If you choose to edit the **RUN TIME** for each station (zone) in **ADVANCED MODE**, please review the steps and screenshots below to access this feature. For information on changing your run times in **STANDARD MODE**, please visit the support article [here](#).<sup>[1]</sup>

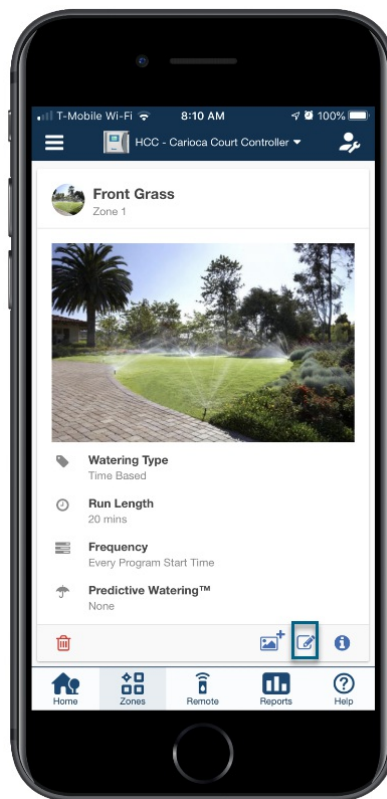

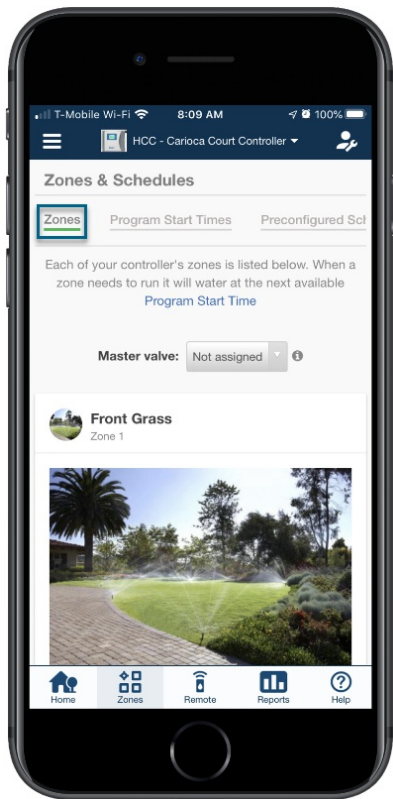

The following fields are also available when accessing this feature:

Time and Frequency	
<b>Watering Length:</b>	The number of minutes this zone will run for each time.
<b>Watering Frequency:</b>	Choose how often to water the zone. The most common is Every Program Start Time.
<b>Schedule Adjustment:</b>	Choose how to adjust the watering time based on your weather triggers.

## Edit Run Times

1. Click on **ZONES** at the bottom of the app or **ZONES AND SCHEDULES** for PC from the home Dashboard. Select **ZONES**.
2. Scroll to the **ZONE** and select the  box that requires the change.
3. Select **NEXT** in the zone details.
4. Enter the watering **RUN TIME** in minutes for the zone in the open text box under **WATERING FREQUENCY**. Select **DONE**, then **OK** to save.
