

# Edit Customer Organization

This feature will allow the contractor to change the organization name of the customer as it would appear in the contractor portal section (e.g. business name, street name, etc.)

Please view the steps and screenshots to access this feature:

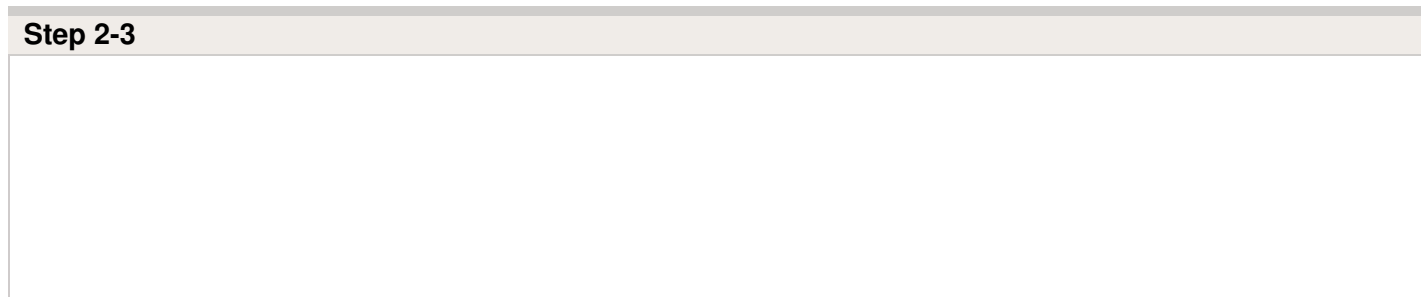

1. Click on the **"Manager"** icon on the upper right hand side, then **"My Customers."**
2. Click on the first set of three selection dots (  ) next to customer name.
3. Select **"Edit Customer Organization"**
4. Change customer name and select **"ok"**

**Step 1**

The screenshot shows the top navigation bar of the Hunter HydraWise interface. The 'Manager' icon (a group of three people) is highlighted with a blue circle. A dropdown menu is open, showing the following options: Home, My Customers (highlighted with a red box), Customer Events, Customer Wide Settings, Generate Job Sheet, and Business Profile. At the bottom of the menu is a green button labeled 'Add New Customer'. The background of the interface shows a 'Remote' button and a partially visible text 'controller and configure a single a'.

**Step 2-3**

This section contains an empty rectangular box, likely intended for a screenshot or additional instructions for steps 2 and 3 of the process.

## Customers and Controllers

The map below displays all your customers' controllers. You can see the status of a controller by want at the left side.
