

Advanced Watering Type - Time Based

Time based watering will water on specific days (unless delayed by rainfall or forecast rainfall) and will vary the watering length based on your watering triggers. The controller will use the Watering Triggers you've set to automatically adjust its watering schedule. This Watering type would be most common as it allows the user to set the information manually or choose from a list of pre-configured watering schedules.

Please view the steps and screenshots to access this feature:

Click on "**Zones and Schedules**" from the home dashboard, then select "**Zones.**" Scroll down to the first zone you choose to edit. Click on the  icon.

1. Choose "**Time Based**" as the watering type and click "**next.**"
2. Choose the following options for the Time Based Schedule.
 - Watering type - time and frequency or preconfigured schedule ^[1].
 - Watering length - run time for zone in minutes.
 - Watering frequency - Every start time or interval days
 - Predictive watering adjustments - Adjusted based on your water triggers
 - Monthly adjustments can be made using a chart as well.
 - Click "**next**" when adjustments are complete.
3. Choose "**enable or disable**" the cycle soak feature ^[2].
4. Finally, the Advance Section will allow you to select a "**watering Adjustment**" as a %.

STEP 2

Zone Details | Time Based Schedule | Cycle & Soak | Advanced

Watering Type
 Enter Time and Frequency below
 Use a Preconfigured Watering Schedule

Watering Length
The number of minutes this zone will run for each time
10 minutes

Watering Frequency
Choose how often this zone should run
 Every Program Start Time
 Interval Based Watering

Predictive Watering™
Adjust watering based on the following triggers

Don't water when:

- Forecast below 60°F
- Wind above 9mph
- 3in+ rainfall last 7 days
- 80%+ chance of rain
- 0.5in+ rainfall last day

Adjust watering:

- Water 30% less when below 73°F
- Water longer when hot
- Water more often when hot

In addition to daily predictive watering adjustments you can specify **monthly adjustments** using the chart below

5 May 0% 80% 200% X
