# How to Configure Your Flow Meter

Assigning the Meter

Please view the steps and screenshots to access this feature:

1. Click on **SENSORS** from the home dashboard.
2. Click on **ADD SENSOR TO CONTROLLER**.
3. Choose a **NAME**, **SENSOR TYPE**, and **INPUT** (flow-related only).
4. Choose which **ZONES** should be linked to the sensor.
5. Click **OK** when finished.

Step 1

Step 2

Sensors

Hydrawise supports standard rain sensors, soil moisture sensors and open/closed contact flow meters. ⊙
