## **Stacking Zones Manually**

In manual mode, you can stack zone runs when a zone is already running. As you turn on individual zones, they will be put in a queue. Each zone will run when the previous zone is finished.

**Note:** This is only available on **SINGLE ZONE** runs. All other manual run features (e.g., All zones, Programs, Zone Tester) will automatically **CANCEL** any current run cycles.

Here's how to use this feature:

- 1. Sign in to your <u>Hydrawise account</u> [1].
- 2. Click any **ZONE** (a) icon.
- 3. Select the **PLAY** ( ) button.
  - SINGLE ZONE: This allows you to manually start a single zone for the scheduled time or a time you manually change.
- 4. Check the box STACK ZONE RUNS IF SCHEDULING CONFLICT to enable this feature.
- 5. Click START.

## **Manual Start a Zone View**
