

Water Days - Interval Watering

This feature is convenient if you want to have a more consistent watering schedule without having to worry about the day of the week or the date. The interval you select is the amount of days between watering including the water day (e.i. 2 day interval will water every other day).

This article will walk you through the process for setting interval days for **Online Advanced and Standard** mode.

Offline mode (Standard Only) instructions can be viewed in the article [here](#) [1].

Online Mode (Advanced)

The steps and screenshots below show how to set a interval for advanced mode online:

Click **"Zones & Schedules"** from the home Dashboard. Select the zone **"Edit"** icon.

Step 1

□

Select **"Next"** to view the watering type screen.

Check the box for **"Interval Base Watering."**

Use the **"Up/Down"** arrows to select your interval number for days.

Select **"Ok."**

Steps 2-5

□

Next click **"Zones & Schedules"** from the home Dashboard. Select the **"Program Start Times"** mode.

Select the start time **"Edit"** icon.

Step 6-7

□

Makes sure all the days of the week are selected. Deselecting any days may result in losing another watering cycle if the interval falls on that day.

Click **"OK."** Interval is now set for the zones assigned to this start time.

Step 6-7

□

Online Mode (Standard)

The steps and screenshots below show how to set a interval for standard mode online:

Click **"Zones & Schedules"** from the home Dashboard. Select the programs **"Edit"** icon.

Step 1

□

Select **"Next"** to view the start times screen.

Steps 2

□

Select the drop-down for "**Interval Base Watering.**"

Use the "**Up/Down**" arrows to select your interval number for days.

Select when the day when the watering will "**Start.**"

Select "**Ok.**"

Step 3-6

□
